GRAIN CARTS

Corner Dual Auger . . . p.2
Dual Auger p.6
Corner Single Auger . . p.8
Specifications p.10

WHY A KINZE

In 1971, Kinze pioneered and introduced the very first dual auger grain cart to help farmers get their crop out during adverse weather. For the 50 years since then Kinze has been constantly innovating the dual auger cart lineup to be the standard of reliability and efficiency. Built for long life and ease of use, Kinze grain carts have a great return on investment because of their dependability, generous capacities, and strong trade-in values. Kinze dual auger grain carts have the only 2-year grain cart warranty in the industry.

- Low driveline maintenance from the auto-reset, torque limiting overrunning clutch

- 50% longer auger wear life from thickened edge auger design
- Kinze dual auger grain carts have the only 2-year warranty in the industry; single auger grain carts are covered by a 1-year warranty

DURABLE

RELIABLE

- Easily navigate rolling terrain with the low-profile design
- Exceptional operator line-of-sight visibility and easy control of grain with clean auger designs

- Proven design with all the features necessary for a successful harvest
- Easy tool-less access to the inspection cover and grain transfer cleanout
- Quick and quiet unloading with the large diameter augers and positive driveline engagement

THE FIRST CARTS ARE STILL RUNNING

To celebrate the 50th anniversary of the Kinze grain cart, we ran a contest not only to find the oldest operating grain cart but to give our customers an opportunity to brag about their trusted Kinze carts. There were some definite surprise discoveries along the way. Here's the story . . .

CORNER DUAL AUGER

HARVEST COMMANDER

1721

1700 BUSHELS* | 750 BU/MIN**

True reliability. Simple to operate. Easily maintained. When chasing multiple combines in a field, the large-capacity Kinze 1721 Dual Auger grain cart with up to 1,700 bushels of heaped capacity is up to the task. Unmatched line-of-sight visibility from the clean corner auger design, and easy operating features, enable drivers of all experience levels to operate it confidently. An intuitive and ergonomic joystick provides control of auger tilt, spout tip, horizontal auger, and flow gate for efficient operation. When changing crops or moving to a new field, cleanout is swift and easy with horizontal auger cleanout doors. Tracked undercarriage has a low-pressure footprint from dedicated high flotation 36" x 108" of tracks.

*Cart capacity and hitch weight are based on #2 corn at 15% moisture (56lb test weight). Cart capacity and hitch weight may vary based on crop type, grade, moisture and other environmental factors.

**Approximate with 15% moisture corn. Bushels/minute will vary with moisture content of grain and/or PTO rpm.

HARVEST COMMANDER

1521

1500 BUSHELS* (TRACKS) | 1450 BUSHELS* (TIRES) | 750 BU/MIN**

True reliability. Simple to operate. Easily maintained. Complete your harvest with ease, enjoy years of dependable service, and realize an excellent return on investment with the 1521 dual auger grain cart. Unmatched line-of-sight visibility from the clean corner auger design, and easy operating features, enable drivers of all experience levels to operate it confidently. An intuitive and ergonomic joystick provides control of auger tilt, spout tip, horizontal auger, and flow gate for efficient operation. To help ensure an uninterrupted harvest, the driveline and track system have minimum maintenance requirements.

Optional 36" x 100" tracks reduce soil compaction and enable easy transfer of grain from field to truck in adverse conditions.

HARVEST COMMANDER

1421

1400 BUSHELS* (TRACKS) | 1350 BUSHELS* (TIRES) | 750 BU/MIN**

Do you need more clearance between the combine spout and the cart? The 1421 dual auger grain cart has the same great features as our other dual auger carts, but with 6" lower sidewalls. With up to 1,400 bushels of heaped capacity, it efficiently gets crop out of the field. Unmatched line-of-sight visibility from the clean corner auger design, and easy operating features, enable drivers of all experience levels to operate it confidently. An intuitive and ergonomic joystick provides control of auger tilt, spout tip, horizontal auger, and flow gate for efficient operation. To help ensure an uninterrupted harvest, the driveline and track system have minimum maintenance requirements.

Optional 36" x 100" tracks reduce soil compaction and enable easy transfer of grain from field to truck in adverse conditions.

HARVEST COMMANDER

1321

1300 BUSHELS (TRACKS) | 1250 BUSHELS (TIRES) | 750 BU/MIN*

When it's time to harvest, you need a grain cart that you can rely on. With up to 1300 bushels heaped capacity, the 1321 dual auger grain cart will increase harvest efficiency while being durable and easy to use. Unmatched line-of-sight visibility from the clean corner auger design, and easy operating features, enable drivers of all experience levels to operate it confidently. An intuitive and ergonomic joystick provides control of auger tilt, spout tip, horizontal auger, and flow gate for efficient operation. To help ensure an uninterrupted harvest, the driveline and track system have minimum maintenance requirements.

Optional 36" x 100" tracks reduce soil compaction and enable easy transfer of grain from field to truck in adverse conditions.

CORNER DUAL AUGER

FEATURES

Central Grease Bank

A centralized grease bank enables swift and easy lubrication of all grease points

Auger Cleanout

Horizontal auger cleanout doors for easy crop changeover

Tool-less Access

Oversized wing fasteners allow tool-less access to the inspection cover and grain transfer cleanout

Hose Cradle

Hydraulic hose cradle and colored hose handles for easy hook-up and storage

Tip Spout

The joystick-controlled aligned tip spout delivers smooth grain flow and precision unloading of grain

Rolling Tarp & Tank Vent

A standard, manually operated, or optional electric rolling tarp protects your harvest from the weather. An integrated tank vent prevents vacuum that could damage the tarp during unloading when it is closed.

Remote Scale Readout

Optional remote scale readout for viewing by the combine operator now connects to the serial port on all scale packages

Joystick Control

Easily control the spout tip, horizontal auger on/off, flow gate, and auger tilt with the intuitive joystick controller

Joystick functions can be switched to tractor SCV controls. Instructions are available from your Kinze dealer

FEATURES & OPTIONS

Hydraulically adjustable flow gate	Tracks or flotation tires	Joystick auger control	Vented grain tank
24" vertical and 22" horizontal augers	Electronic 5-point scale options	Horizontal auger cleanout doors	Centralized grease bank
Torque limiting driveline clutch	Remote scale readout	Smooth flow aligned tip spout	Hydraulic hose cradle and colored ends
	Pivoting external corner auger		2-year warranty

TRANSPORT OPTIONS

1721 Kinze Tracks

- The 1721 grain cart comes with dedicated 36" x 108" tracks

Tracks

- Camso tracks are available on 1321, 1421, and 1521 model grain carts
- The 36" x 100" footprint provides low soil pressure in adverse conditions
- Equipped with self-tensioning belts, pivoting bogie wheels, and oil bath hubs

Flotation Tire

- Available on 1321, 1421, and 1521 model grain carts
- The high flotation 1250/50R32 tires deliver low ground pressure
- Lug design provides great mud-handling performance

SCALE PACKAGES

POINT scale indicator and the REAP app on an iPad are shown above

Scale-Tec POINT® Scale Indicator*

- Clean, easy-to-read design
- Serial port for external scale readout
- Bluetooth® enabled and ISOBUS compatible
- Works on tractors with or without ISOBUS
- View scale readout on mobile devices from up to 1,000 ft. away
- ISOBUS connection or PTO sensor provides unload sensing
- REAP™ app subscription provides comprehensive data management**
- Free 1-year REAP app subscription with the purchase of a POINT scale indicator
- REAP integrates with the John Deere Operations Center™

*Scale-Tec POINT is available on all Kinze grain cart models

**The REAP app is available directly from Scale-Tec. To use it, an iOS device (iPad or iPhone) with access to cellular data and a current REAP subscription, is required.

Digi-Star® GT400 Scale Head

- Easy-to-read weight values
- Serial port for external scale readout
- Basic weight recording functions

DUAL AUGER

HARVEST COMMANDER

1121

HARVEST COMMANDER 1121 DUAL AUGER GRAIN CART
1100 BUSHELS* | 550 BU/MIN**

Based on the proven and legendary 1050 dual auger grain cart, the 1121 is establishing its own place as a legend. The 1121 is available with dual 480/80 R42 row crop tires – ideally suited for easy truck transport from farm to farm.

The proven, straightforward dual auger design of the 1121 provides the key features necessary for efficient grain handling. The on-demand horizontal auger, optimum 1100-bushel capacity, tip spout control, and multiple undercarriage options deliver high value at a low cost of ownership. Robust construction, along with minimum driveline and track system maintenance, ensures an uninterrupted and productive harvest.

*Cart capacity and hitch weight are based on #2 corn at 15% moisture (56lb test weight). Cart capacity and hitch weight may vary based on crop type, grade, moisture and other environmental factors.
**Approximate with 15% moisture corn. Bushels/minute will vary with moisture content of grain and/or PTO rpm.

FEATURES & OPTIONS

20" vertical and horizontal augers	Flotation tires	Remote scale readout	Hydraulic hose cradle and colored ends
Torque limiting driveline clutch	Row crop tires	Centralized grease bank	Vented grain tank
Tracks	Electronic 3-point scale options	Vertical auger tip spout	2-year warranty
		Horizontal auger cleanout doors	

DUAL AUGER

1121

Remote Scale Readout

Optional remote scale readout for viewing by combine operator now connects to the serial port on the scale head

Tip Spout

Simple tip spout grain control using tractor SCV

Central Grease Bank

A centralized grease bank enables swift and easy lubrication of all grease points

Rolling Tarp & Tank Vent

A standard, manually operated rolling tarp protects your harvest from the weather. An integrated tank vent prevents vacuum that could damage the tarp during unloading when it is closed.

Optimum Capacity

Efficient 1100-bushel capacity; secure load containment with high and low backboards

LED Lighting

Rear, spout, and hopper LED lighting for greater visibility

Auger Cleanout

Horizontal auger cleanout doors for easy crop changeover

Tool-less Access

Oversized wing fasteners allow tool-less access to the inspection cover and grain transfer cleanout

Hose Cradle

Hydraulic hose cradle and colored hose handles for easy hook-up and storage

TRANSPORT OPTIONS

Tracks

- Terra Drive System (TDS) tracks are available on model 1121 grain carts
- The 36" x 100" footprint provides low soil pressure in adverse conditions
- Equipped with self-tensioning belts, pivoting bogie wheels, and oil bath hubs

Flotation Tires

- The high flotation 1245/50R32 tires deliver low ground pressure
- Lug design provides great mud-handling performance

Row Crop Tires

- Dual row crop 480/80 R42 tires for easy truck transport
- Swing axle design enables easy access and maintenance of the dual tires
- Central grease bank for quick lubrication of all row crop tire grease points

CORNER SINGLE AUGER

HARVEST COMMANDER

1051

1050 BUSHEL* | 475 BU/MIN**

Harvest demands dependable grain handling equipment. Just like Kinze's dual auger carts, the 1051 single auger grain cart is built with robust materials and components to make it tough, durable, and reliable, but at a lower cost of ownership. With unmatched line-of-sight visibility from the clean corner auger design, and easy operating features, drivers at all experience levels can operate it confidently. Equipped with a quiet operating driveline free of sheer bolts, uptime is significantly improved for a more efficient harvest. The easy to operate pit dump door makes pit unloading quick and effortless, and makes fast work of complete cleanout for crop changeover.

Optional tracks reduce soil compaction and enable easy transfer of grain from field to truck in adverse conditions.

*Cart capacity and hitch weight are based on #2 corn at 15% moisture (56lb test weight). Cart capacity and hitch weight may vary based on crop type, grade, moisture and other environmental factors.

**Approximate with 15% moisture corn. Bushels/minute will vary with moisture content of grain and/or PTO rpm.

FEATURES & OPTIONS

35-degree adjustable spout

Hydraulically adjustable
flow gate

20" front fold corner auger

Pit dump door

Torque limiting driveline clutch

Tracks or flotation tires

Vented grain tank

Electronic scale options

Remote scale readout

1-year warranty on
single auger cart

Tip Spout

Delivers smooth grain flow and precision unloading of grain

Pit Dump Unloading

Fast pit unloading, and quick and easy cleanout with standard pit dump door

Auger Visibility

Front folding corner auger for excellent visibility

Simple Hookup

Hydraulic hose cradle and colored hose handles for easy hookup and storage

Rolling Tarp & Tank Vent

An optional, manually operated rolling tarp protects your harvest from the weather. An integrated tank vent prevents vacuum that could damage the tarp during unloading when it is closed.

TRANSPORT OPTIONS

Tracks

- Terra Drive System (TDS) tracks are available on model 1121 grain carts
- The 36" x 100" footprint provides low soil pressure in adverse conditions
- Equipped with self-tensioning belts, pivoting bogie wheels, and oil bath hubs

Flotation Tires

- The high flotation 1050/50R32 tires deliver low ground pressure
- Lug design provides great mud-handling performance
- Radial diamond tread flotation is also available
